

Dear Mildred - This is Friday - Your letters get
answered as soon as I can & Freddie can
take them so don't expect an answer as soon
as your next mail comes - It is like this
about my condition Mildred - I have
that growth & they were broken into the
treatments on acct of me being Dr. Magaret's
patient & he is sick - He will eventually
take care of it but is to be 2 more weeks in
the hospital after this one - so time is what
it takes but in ways I am better I can't work
tho like I did when you were here - I got
no strength, but its nothing serious & I've
got beyond the worry stage - Mrs. Bean is so
good and satisfactory I couldn't ask for more.
Gertrude said Jim was re assigned when he
got to Spokane & sent to F. Bragg. He has been
there before - He says this job is secret &
he can't tell any one a thing about it
but I'm so glad it is U.S. & once more - yes
it just can't be a year more here without
Jim - I think of things too to tell her -
She used to tell me little pick phrases &
Annerup that tickled her & so now when he

says there I feel she is smiling - Like, him
saying that his dad & some one else kept
batch" together & lots of things that stay in
my memory, Jon. Rayner is home & Donna
his little wife, also, they have fixed up John's
room & she will make her home

there while he goes on
over seas duty - I don't know when
I can see Mrs. Thiescher - I can't go ^{over}
& she can't come his car stands ^{out}
there & Luella drives it, I

think she will stay with her
mother - They have every thing
Olaf's gas furnace blew up & they
had it just awful fast all over I
didn't talk - Mrs. Bean did but it was

awful, Well my arms ache so
quit - Don't worry - It will probably
be 1956 before we can take that trip I
sure do hope we can speed it up I

want to get outside a little, Did you know
about Pinky going to Honolulu? I missed out
on that & now I find a girl crying in his
empty room - Love Carrie
